DETAILED ACTION

Election/Restrictions

Applicant's election of Group I, claims 1-5 in Paper No. 11 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 6-15 are withdrawn from further consideration by the examiner as being drawn to non-elected inventions.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is confusing since it does not recite positive and clear steps to the process for which it is claiming. A method of making an amino alcohol of the formula I in

the instant application needs to be claimed in a manner which sets forth each step of the method in concrete, clear and sequential steps. Further, in claim 1, there is no antecedent basis for, "the racemate" or "the reduction".

In claims 4 and 5, it would be much clearer if applicant listed the possible solvents and alcohols or water in markush language, i.e. a solvent selected from the group consisting of a, b and c.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Katagiri et al.

The reference teaches the claimed process. Katagiri specifically teaches this process on page 1116, see chart 13 and right column, first full paragraph, see also abstract, page 1113, second paragraph, left column, page 1114, right column, page 1121, last paragraph in left column to top paragraph, right column.
